

Y-TAGS™

I-PIECE EAR TAG SYSTEM FOR LIVESTOCK IDENTIFICATION

Premium features deliver benefits to Producers

Made from high quality TPU (*Thermoplastic Polyurethane*) material with additives to extend the life of the tag. Available in 10 fade resistant colors.

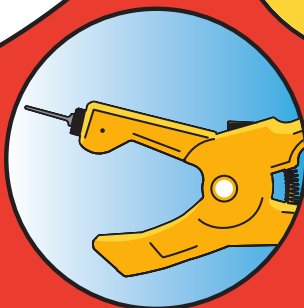

Smaller head design and exclusive Surgi-Tip™ for a clean incision, faster healing and improved retention. Fixed stem length promotes air flow and rapid healing.

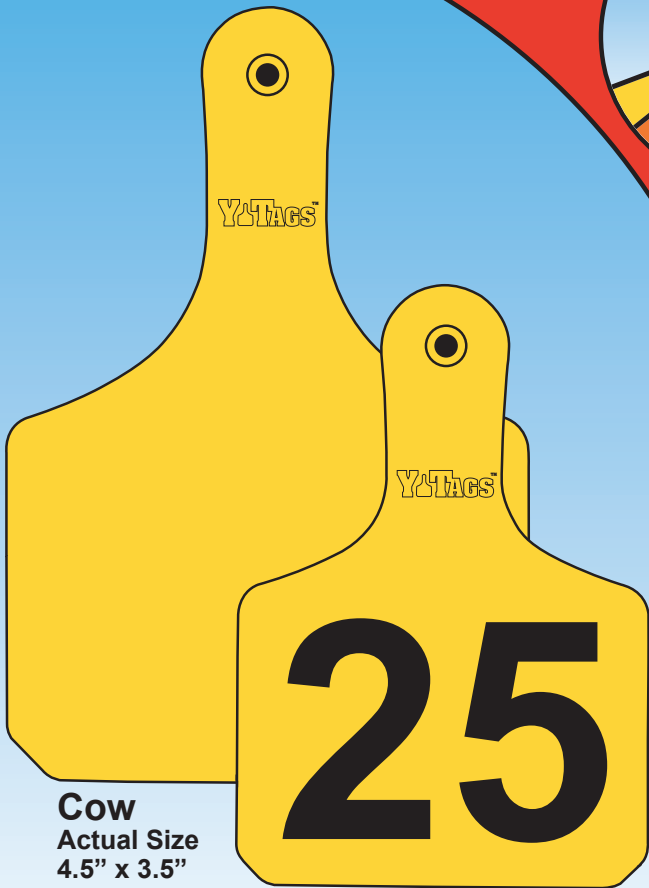

Formulated for resistance to UV and moisture to protect tag performance.

100% PURELASER™ PERMANENT IMPRINTING. Entire tag surface is printed and guaranteed readable for the life of the animal.

Y-Tags 1-Piece Tagger features a wider jaw, flip-out pin and ergonomic design for easy application.
