Poultry G.I. Health+

NEW!

All-in-one solution every poultry owner needs for a healthier, more productive flock. Designed with natural ingredients, it's effective, safe, and simple to use—making it an essential part of your poultry care routine.

Natural Dewormer - Poultry G.I. Health+ uses natural ingredients like diatomaceous earth and papaya seed to gently and effectively eliminate parasites, keeping your flock thriving.

No Hold Time on Eggs or Meat - Unlike traditional chemical treatments that require a 7-day waiting period before consuming eggs or meat, this supplement is completely safe for immediate use. **No delays mean no lost productivity.**

Hydration and Recovery - Think of it as “**Gatorade for chickens.**” Packed with electrolytes, Poultry G.I. Health+ restores hydration and energy, especially during periods of stress, illness, or high temperatures.

Supports Gut Health - Loaded with probiotics, vitamins, and minerals, it promotes healthy digestion, improves nutrient absorption, and helps your flock maintain peak productivity.
